

# Spare Parts Identification and Sale with SpareParts 365

## Fact Sheet

### What is SpareParts 365?

**SpareParts 365** is a modern solution for the identification and sale of spare parts. This allows you to:

- Create and publish spare parts catalogs.
- Support your customers and service technicians in identifying spare parts.
- Optimize the sale of spare parts.

### Who is SpareParts 365 suitable for?

**SpareParts 365** is suitable for industrial companies that manufacture high-quality and durable products, where the availability of spare parts is an important factor in after-sales service.

### What are the benefits of SpareParts 365?

**SpareParts 365** enables you to:

- Increase sales of spare parts (through easy ordering).
- Improve customer satisfaction (through fewer incorrect orders and shorter downtimes).
- Reduce costs and expenses in spare parts documentation and sales.

### What are the main features of SpareParts 365?

The combination of these main features distinguishes **SpareParts 365**:

- Integrated portal solution for the creation and publication of spare parts and service information as well as the sale of spare parts.
- Low effort during implementation and operation.
- Low one-time and recurring costs (TCO).
- Easy to use for catalog creators and users.
- Native apps for using offline catalogs on mobile devices.
- Flexible deployment scenarios in the cloud and on-premises.

## Which configurations are possible with SpareParts 365?

SpareParts 365 can be used in different configurations:

- Integrated cloud solution hosted by a domestic provider.
- Installation and operation in your own IT infrastructure.
- Installation and operation in an AWS, Azure, or Google Cloud environment.

Combined solutions are also possible (e.g., local creation, publication in the cloud).

## What license models are available?

SpareParts 365 can be used in four editions:

Base	Pro Subscription	Prime Subscription	Enterprise Subscription
<ul style="list-style-type: none"> <li>• 1 project</li> <li>• 1 catalog</li> <li>• 1,000 catalog entries</li> <li>• 1 catalog creator</li> <li>• 10 named catalog users</li> <li>• Portal access</li> <li>• Online catalog builder for data import and testing</li> <li>• Online catalog with extensive catalog functions (display, navigation, search, shopping cart) - suitable for desktop and mobile devices</li> <li>• Cloud hosting</li> </ul>	<ul style="list-style-type: none"> <li>• 2 projects</li> <li>• 100 catalogs pre project</li> <li>• 100.000 catalog entries per project</li> <li>• 3 catalog creators</li> <li>• 100 catalog users</li> <li>• Unlimited guest users</li> <li><b>In addition to Base:</b></li> <li>• Extensive configuration options</li> <li>• Using OCRHotspot Standard</li> <li>• Catalog selection by product type or serial number</li> <li>• Additional documents</li> <li>• Full shop functions</li> <li>• Customizable design</li> </ul>	<ul style="list-style-type: none"> <li>• 5 projects</li> <li>• Unlimited catalogs</li> <li>• Unlimited catalog entries</li> <li>• 10 catalog creators</li> <li>• 1000 catalog users</li> <li><b>In addition to Pro:</b></li> <li>• Integration of 3D graphics<sup>1</sup></li> <li>• Master catalog with filtering</li> <li>• Notes</li> <li>• Alternative operation possible in your own IT environment ("On Premise")</li> <li>• 2 hours of support / month</li> </ul>	<ul style="list-style-type: none"> <li>• Unlimited projects</li> <li>• Unlimited catalog creators</li> <li>• Unlimited catalog users</li> <li><b>In addition to Prime:</b></li> <li>• Offline catalog on mobile devices</li> <li>• Customer-specific adaptations and extensions</li> </ul>
<b>Cost / month: € 0</b>	<b>Cost / month: € 499</b>	<b>Cost / month: € 1,249</b>	<b>On request</b>

Alternatively, a "Perpetual Licensing" license model (purchase license plus annual maintenance in the amount of 18%) is also available.

<sup>1</sup> Causes additional cost.
