

EXPERTS IN Translation & Localization

About us

LANGUAGE IS OUR **PASSION**

PASSION

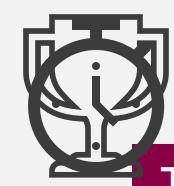

Tilde is a leading European language technology innovator and service provider that strives to bridge the gap between language barriers and to facilitate multilingualism in the digital age.

LANGUAGE

By using human-powered intelligence, Tilde provides translation and localization services. In turn, by using the latest cutting-edge AI-driven technologies, it develops custom machine translation (MT) systems, intelligent virtual assistants and speech technologies.

EXPERIENCE

Our clients include notable organizations such as Microsoft, IBM, and the European Commission and many others, which rely on Tilde's masterful linguistic expertise and exquisite translation and localization services.

Tilde Translation

WE STRIVE FOR **EXCELLENCE** IN EVERYTHING WE DO

Our large team of in-house translators and editors help companies to better meet the demands of multilingualism and multi-cultural customers. The combination of linguistic competence and product-specific experience gives Tilde an edge in serving its customers.
